X-PLOR₂

The next generation X-PLOR® portable oxygen concentrator features our ModulAir™ technology and Airgonomical™ design that makes it lightweight, compact, and able to generate more oxygen by weight than any device in its class. Breath-detection technology delivers oxygen when you breathe in, and the unit will notify you if no breath is detected. X-PLOR enables you to live your life in motion by providing innovative oxygen enrichment technology in a small package that's capable of delivering between 215-750 mL of oxygen per minute.

An 8-cell battery provides up to 4.5 hours of battery life, so you can still participate in your favorite activities. The X-PLOR is quiet and discreet. It even allows you to easily charge the unit on or off the device without additional accessories. With X-PLOR, you can use your unit freely while charging a backup battery at the same time. User replaceable cartridges make maintenance hassle-free, with no need to send your device back to your oxygen provider to replace your cartridge.

X-PLOR Portable Oxygen Concentrator

X-PLOR is FAA compliant and FDA cleared, meaning it is just as safe and easy to travel with as it is reliable!
